

Truck Request Modification Provision:

We have given the option to modify the truck request if any changes are required post truck request. Like, Delivery Type, Delivery Destination, Dimension, Vehicle Place Require Date, Remark and Packing List Document. These changes will only be allowed till vehicle details is not updated against the truck request. The option is available in all the 3 module, CHA Import, CHA Export and Freight Forwarding.

Once Vehicle details are updated against the truck request then no modification will be allowed. Transport team has to make sure that if any changes are required in truck request details then they should ask respective team to make the changes prior to Vehicle update in the request.

Refer the below screen short and step to how to modify truck request detail in respective Module.
