

Release note

This document communicates the major new features and changes in this release of the, <Export > Modules.

Sub: Implementation of Ex-Bond Shipping Bill in ICES 1.5 -reg.:

Now, a format for ex-bond SB has been developed on ICES for processing of export of warehoused goods from a bonded warehouse. The design and workflow are as follows.

While filing an Ex-bond SB, select SB Type as Ex-bond to declare the warehouse code-

The screenshot displays the ICES 1.5 software interface for creating an export shipping bill. The 'EXPORT - ITRANZ LOG' window is open, showing the 'Export' tab. The 'Filling/SBType' dropdown is set to 'Ex-Bond', and the 'Warehouse Code' field is highlighted with a yellow box and contains the value 'MAA1U039'. The 'Job Creation' button is visible. The 'General Details' tab is also shown, displaying various fields for exporter and consignee information.

The single window details will be capture in the flat file as below, the details have been automated for the ease of documentation

Info_Typ	Info_Qfr	Info_Code
DIR	XSB	Warehouse_code to be entered

SuperAdmin	Dashboard	Import	Export	Tracking	Master	DMS	Reports
------------	-----------	--------	--------	----------	--------	-----	---------

Modules & Updates

Export Module

While filing an ex-bond SB, the exporter needs to declare the warehouse code in the single window table, with

Info Typ

Info_Qfr

Info Code

The above will be capture automatically once the user selected the warehouse

Then the user has to mention the BE details in the product screen after selecting the Re-Export .
